About the project

The aim of the project – which is the continuation of the Let's build Europe Together! project held in 2017 – is that the participant countries should think about those measures that should be taken in order to create a stable and secure future for their settlements considering the direction Europe heads on. The project we propose involves citizens from eight localities, representing 7 EU countries: Romania, Hungary, Germany, Croatia, Poland, Italy and Slovakia.

During these days, citizens - local and invited also, will have the chance to meet, make new friendships and share their opinion and concerns about the changing Europe, to speak about the new opportunities.
